

Welcome Back Students and Families!

I'm Mrs. Prudencio, the school social worker here at CCHS. I am a Licensed Clinical Social Worker, going on my 16th year with Carbondale Community High School.

As a trained Mental Health Practitioner, I'm happy to work alongside the class counselors to form a team that is committed to serving and supporting you throughout your years at CCHS.

You can reach me at amy.prudencio@cchs165.com or by phone, (618) 457-3371 ext. 217.

I provide counseling support services to students of CCHS, helping to build social emotional skills needed to navigate these high school years and plan for the future. I also help connect students and families to community resources such as mental health supports, food/shelter supports and other necessities that can be barriers to school success.

This is such a unique and challenging time. I have embraced the saying "though we are physically distanced, it is more important than ever to stay socially connected!"

I look forward to working with you remotely and as we return to school this year.

Be well!

Mrs. Prudencio 😊
